

ANGELA GARCIA

BACKGROUND DESIGN | ILLUSTRATION

EDUCATION

Art Center College of Design

Bachelors in Illustration (Entertainment Track) and a Business Minor 2019-2022

EXPERIENCE

Entertainment Arts Project Studio Fall 2022

William Perkins

During this course I got the opportunity to focus on various backgrounds suited for TV animation. I dived into research and visited different places in order to make my backgrounds believable. I also explored different perspectives and compositions to make my backgrounds come to life.

Childrens Book Illustration Spring 2022

Stephen Turk

I got the chance to work on two childrens books which I have wrote and illustrated. The first book is called "Carmelita's Sweet Adventure" which is about a little girl and her adventure in Mexico with superpower candy. I incorporated my cultural background and experiences to create a book people would enjoy.

My second book is called "Misplaced" and it's about a puzzle piece named "Duncan" who leaves his puzzle and goes on a journey to find out what truly makes a home.

Graphic Design for Entertainment Arts Fall 2022

Paul Rogers

In this course I created day and night layouts of the "Ugly Mug" cafe. I worked with a graphic and texture style to showcase the charm of my favorite home town cafe. Another project I worked on was a background design based on the song "Home Motel". I designed an old dingy motel, and I tried to create a depressing and lonely atmosphere that coincided with the song.
